Summary

With 3 years of experience in the software development industry, including 1.5 years of professional expertise, I possess a comprehensive skill set in both backend and frontend development. Presently, I am actively engaged in an Angular project for a prominent financial institution, where I consistently demonstrate my proficiency in designing captivating and highly functional user interfaces.

Experience

Full-stack Developer
CartaSur

Feb 2022 - Present (1 year 5 months)
Backend:
• Application development using C#, SQL Server, and .NET Core.
• Creation of stored procedures, triggers, and jobs in SQL Server to implement complex business logic and automate tasks.
Frontend:
• Development of an internal application for the HR department using Angular, TypeScript, Bootstrap, and Angular Material.
• Utilization of RxJS for managing asynchronous data flows and reactive programming.
• Design and development of attractive and responsive user interfaces using Angular features such as directives, pipes, and data binding.

Education

Udemy
Master en Angular, Computer Programming
2023 - 2023
components, services, routing, Angular Material, state management with RxJS.

EducacionIT
C# Developer, Computer Technology/Computer Systems Technology, Computer Programming
2022 - 2022
